The Sun is in Your Hand

Original Concept  
Hideo Kojima

The thing is,

you need the sun to beat the boss.

Step outside and enjoy some sunbathing.

**See!**

Isn't this all new?

OK, why don't we start playing it!

Sure!

First, you input today's date and time.

Next you input where you live.

Why do that?

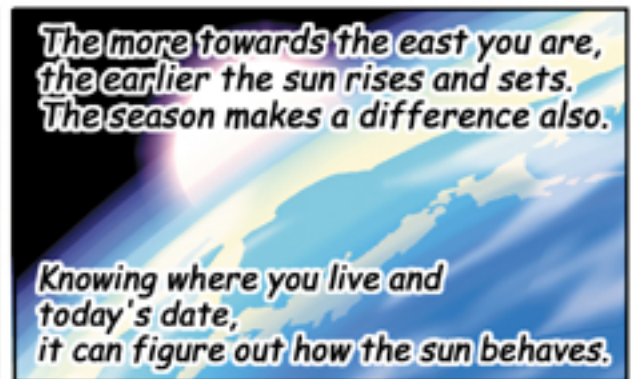

To determine how long the sun is out.

From where does the sun rise?

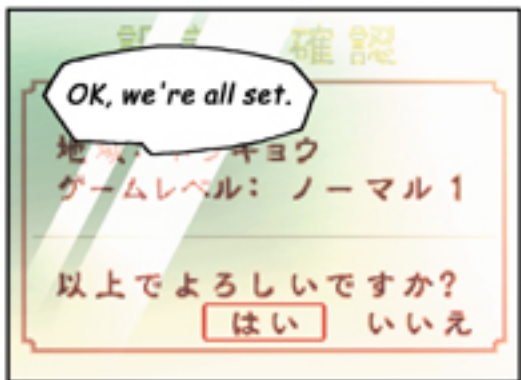

From the east.

The more towards the east you are, the earlier the sun rises and sets. The season makes a difference also.

Knowing where you live and today's date, it can figure out how the sun behaves.

OK, we're all set.

ゲームレベル: ノーマル1

The player is a vampire hunter.

Cool!

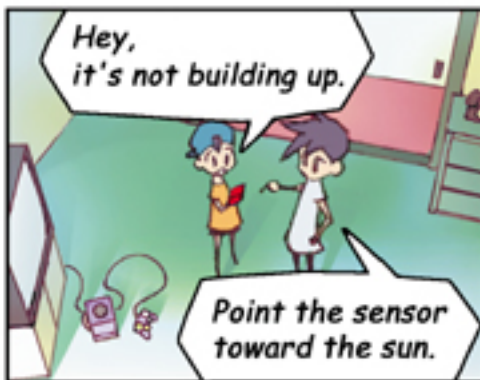

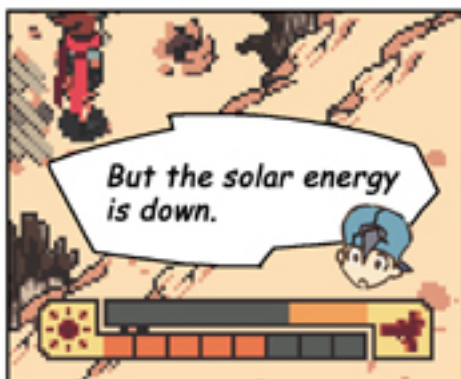

PM 3:00

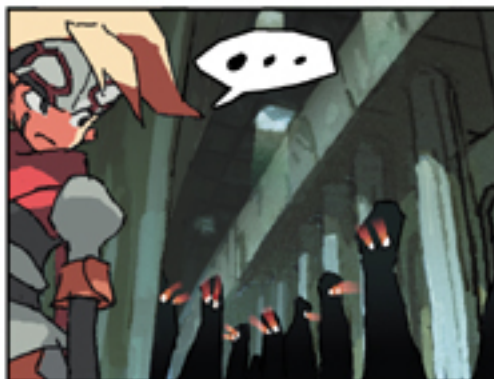

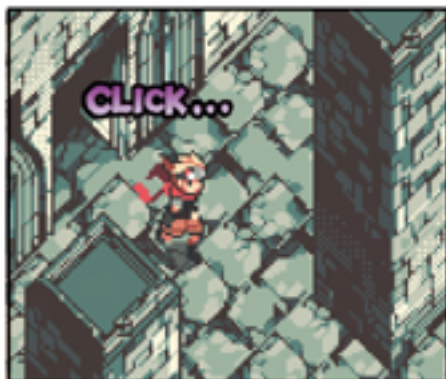

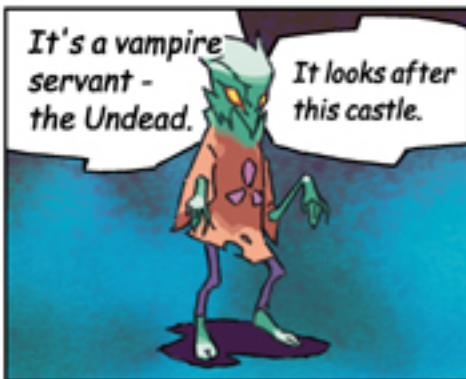

Let's first go to the vampire's castle.

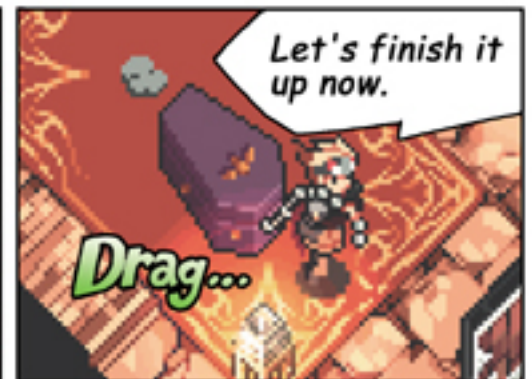

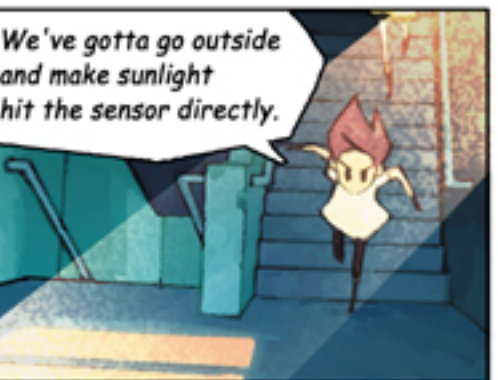

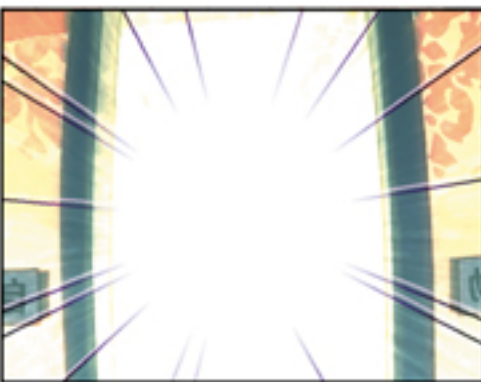

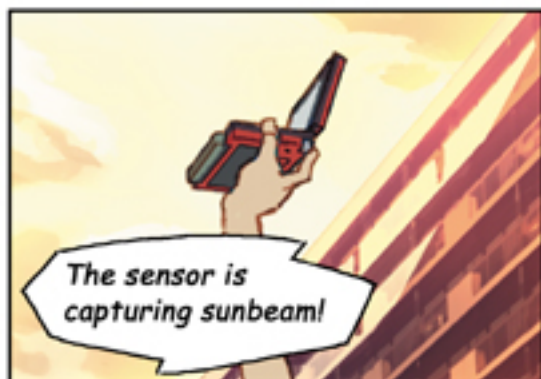

**Gaaaaaa Aaaaaah Gwaaaaahh!!**

**END**
